

MULTI-SHEET CLAMP FILING

THE **Planhorse**[®] CLAMPS

DESIGN
MARK

The clamps come in 4 sizes A0, B1, A1 and A2 and are used to clamp together plans, tracings etc. for convenient handling, storage or carrying.

SIMPLE TO USE . . . lay clamps on side, loosen wingnuts and slide sheets into the open jaws. Simply tighten the wingnuts. The maximum grip can be obtained with finger pressure alone. Clamps

**10 YEAR
REPLACEMENT

PURPOSE FOR WHICH INTENDED

MANUFACTURE DETAILS:

Mobiles and wallracks are made of steel powdercoated in epoxy white and charcoal paint and are supplied in flat carton packs ready for assembly.

Clamps are made of aluminium, powdercoated in white scratch resistance enamel paint, with charcoal handle and wingnuts and red support hardware

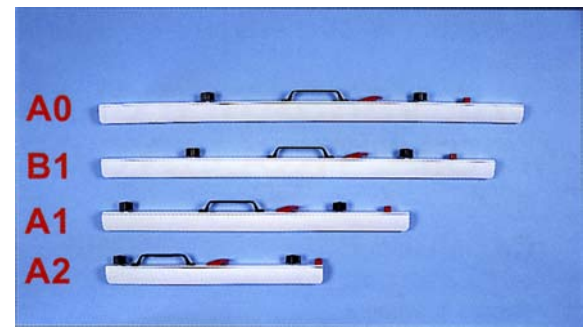

CLAMP VARIATIONS

Clamps can be modified to meet customers special need.

Modifications include:

- A. Looped clamps for fitting into pin and prong type cabinets. It is necessary to know the distance between loops. A0, B1 and A1 length only. Minimum order 100 clamps.
- B. 3 stop clamps. The stops are positioned so that the clamps will hang in similar type plan hanging systems. A0, B1 and A1 length only.
- C. Lugs enable the clamps to be suspended from each end.
